Handbook Highlight

Extended Absences (pg. 7):

If a student exceeds three or more consecutive days absent, a doctor's certificate must be presented upon return, indicating that the student may safely return to class. If a student is confined to a hospital for an extended period, the parent and child must have a conference with the principal before the student is readmitted to school. During the period of absence, there must be communication between the parent and the school. It will be the responsibility of the parent to pick up and return the required work in order for the student to receive credit. All exams must be taken. Both parents and students should be aware of the consequences of being absent more than 15 days in a school year. The State of Louisiana requires each student to attend at least 160 days in order to be promoted.

Thanksgiving Day Service

We will be holding a service on Thanksgiving Day at 9:30 a.m. in the church. We would love to have you and your family join us!

Please note, we will also be having Advent services every Wednesday evening in December, and all are invited.
